1.0 INTRODUCTION

The Experimental Sounding Rocket Association (ESRA) and the New Mexico Spaceport Authority (aka Spaceport America) have partnered to host and support the Spaceport America Cup: Intercollegiate Rocket Engineering Competition, a week-long series of events which will set the background and provide structure for the world's largest university rocket engineering competition. This host-event continues the Intercollegiate Rocket Engineering Competition's (IREC) legacy of inspiring student design teams from across the country and around the world.

1.1 BACKGROUND

The “smoke and fire,” noise, high speeds, and sleek aerodynamics of rocketry encourage students to pursue science, technology, and mathematics-based careers. They have "Rocket Fever!", and competition motivates them to extend themselves beyond the classroom to design and build the rockets themselves. These students also learn to work as a team, solving real world problems under the same pressures they'll experience in their future careers.

ESRA held the first annual IREC in 2006. The competition achieved international status in 2011 when Canadian and Brazilian universities threw their hats in the ring. These schools have since been joined by others from every inhabited continent. In fact, the competition has roughly doubled in size every year since 2013, becoming the largest known collegiate level rocket engineering competition in the world in 2014. Attendance in 2016 included as many as 600 participants – including faculty, family, and friends of students from over 50 colleges and universities. 2017 marked the start of a new era with the inaugural Spaceport America Cup. Over 1,100 students, faculty, and representatives from 22 industry partners participated in an academic conference, rocket and payload engineering competitions, and non-competing demonstration flight tests.

1.2 PURPOSE AND SCOPE

This document primarily defines the schedule on which participants in the Spaceport America Cup: Intercollegiate Rocket Engineering Competition must submit required deliverables to the event organizers to be considered "timely" in scoring. The impact of timeliness on scoring is described for each respective deliverable in Section 2.6 of the *IREC Rules & Requirements Document*, maintained on the ESRA website (<http://www.soundingrocket.org/sa-cup-documents--forms.html>). Furthermore, this document, integrates other information useful to participants, such as the deadlines for early, on-time, or late-payment of fees, due dates for required waivers/forms, and the detailed event schedule of the Spaceport America Cup itself.

1.1 REVISION

The Integrated Master Schedule Document is a living document and will be updated as needed throughout the year leading up to the Spaceport America Cup – at the event itself if necessary – in response to real-world events. The most up to date version will always be maintained on the ESRA website (<http://www.soundingrocket.org/sa-cup-documents--forms.html>). Participants should always verify they are working to the correct version by checking the Effective Date recorded on the header of their copy matches the version currently stored on the ESRA website. Updates to the SAC Integrated Master Schedule Document will always be announced via e-mail and other means.

NOTE: The event organizers will never revise the SAC Integrated Master Schedule Document to make the due dates of upcoming deliverables sooner than originally scheduled.

1.2 DOCUMENTATION

The following documents include standards, guidelines, schedules, or required standard forms. The documents listed in this section are either applicable to the extent specified in this document or contain reference information useful in the application of this document.

3.3 WEDNESDAY, JUNE 11, 2025 SCHEDULE DETAILS

Events scheduled include Event Setup at the Spaceport, Launch Preparations, and an opportunity for any well-organized teams using solid propulsion to attempt flight. All these events will occur on Spaceport America Property. The Spaceport is located on County Road A021, Truth or Consequences, NM 87901. More specific driving directions will be provided during the Team Officers & Faculty Briefing at the Conference. Once at the Spaceport participants will be heavily assisted in reaching their appropriate locations by ESRA and Spaceport America personnel.

TIME (MT)	EVENT(S)
Wednesday June 11, 2025 7:00am Spaceport America VLA	Gates open: The gate to Vertical Launch Area (VLA) opens at 7:00am. Teams may begin showing up no earlier than 06:00am – Spaceport America security staff will direct the participants to the VLA. Spaceport Security will establish the participant parking and rocket assembly areas.
Wednesday June 11, 2025 10:00am Spaceport America VLA	Morning Flyer Meeting: <u>All Team Project Managers and Safety Officers must meet for mandatory Flyer's Meeting each morning until they complete their flight.</u> These morning meetings cover launch operations, safety instructions and any updates to procedures that have been made. It is the responsibility of the team project manager and safety officer to disseminate the information to all team members. Students attending the Flyer's Meeting should expect to take notes.
Wednesday, June 11, 2025 10:00am-4:30pm Spaceport America VLA	Launch Preparations and Judging Evaluations: Once the Rocket Assembly Area is established, participants will begin preparing their projects for flight. Judging and Range Safety Evaluations not completed by this afternoon, will continue the next day.

<p>Wednesday, June 11, 2025 12:00n-4:30pm Spaceport America VLA</p>	<p><u>Range open for launch operations:</u> ESRA anticipates both staff and students being prepared to support launches no earlier than 12:00n.</p>
<p>Wednesday, June 11, 2025 4:30pm-5:00pm Spaceport America VLA</p>	<p><u>Judges Coordination Meeting:</u> Judges will convene in the VLA for a quick debrief of the first day and prepare for the next day's launch operations.</p>
<p>Wednesday, June 11, 2025 5:30pm-6:00pm Spaceport America VLA</p>	<p><u>Evening Flyer Meeting:</u> Mandatory for all teams attempting to launch early the following morning before the next scheduled Morning Flyer Meeting, and any other team told to attend by event staff. Optional to all other teams. On Wednesday, this is mandatory for all high altitude launches – which will attempt flight early Thursday morning. This briefing will be similar to the Morning Flyer's Meeting but will also act as a way for teams and ESRA to give feedback to one another.</p>
<p>Wednesday, June 11, 2025 Sunset ~8:00pm Spaceport America VLA</p>	<p>Spaceport America VLA Gates Close - All Students must depart the VLA. Camping is only approved for Hybrid and 2-Stage teams.</p>
